“

From the very beginning, my vision was to create a trumpet with a truly new sound— **one that offers an unbeatable experience for both player and audience.** Working with the European Yamaha Atelier in Hamburg on the YTR-8335EA, this vision became reality: an instrument that unites a beautifully warm sound with impeccable intonation.

I can always speak in my own voice—from soaring highs to grounded lows, from thunderous fortissimo to whispersoft pianissimo. In solo and orchestral repertoire alike, it responds with nuance, clarity, and power.

It is the most versatile trumpet I've ever played. ”
